

PowerSchool Parent Portal Guide

PowerSchool

PowerSchool Student and Parent portal:

The PowerSchool Student and Parent portal is a tool that is integrated into the PowerSchool Student Information System (SIS) that is specifically developed for parents and students. The PowerSchool Student and Parent portal gives parents and students access to real-time information including attendance, grades and detailed assignment descriptions. Everyone stays connected: Students stay on top of assignments, parents are able to participate more fully in the student's progress, and teachers can use their gradebook to make decisions on what information they want to share with parents and students.

Parent Access Management:

Parent Access Management provides parents with the ability to have their own individual parent account, including user name and password. Your school's PowerSchool administrator may create your account. Once your account is created, you can manage your account information, and link any and all students to your account (for whom you have parental and legal rights to). If you've forgotten your account sign in information, you can retrieve them by contacting the school.

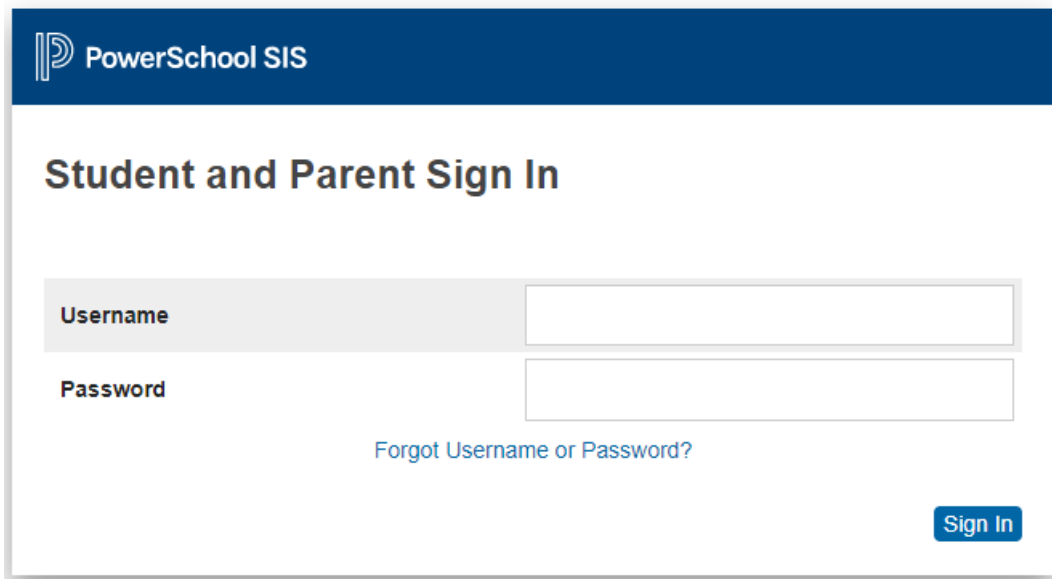

Get Started:

To get started, you must sign in to the PowerSchool Student and Parent portal using the URL, username, and password provided by the school. If you do not have this information or have questions, contact your school.

Use the letter you will receive from the school to create an account. After you have successfully created your account and you can log into the Parent Portal.
